Logo & Usage

HIGH MEADOW SOLUTIONS

HIGH MEADOW SOLUTIONS

Primary: Light Background

HIGH MEADOW SOLUTIONS

Primary: Dark Background

Quick Tips

- Use the transparent background version of the logo
- Maintain some breathing room around the logo
- Busy or cluttered backgrounds can sometimes make the logo harder to read, so simpler backgrounds tend to work better
- Drop shadows on the logo are worth avoiding as they can reduce the clean, professional feel

HIGH MEADOW SOLUTIONS

Iconography & Imagery

Icon Style

- Use fill-style icons: they tend to look more modern and visually fuller than outline styles
- Icons should use brand colours: Forest Green, Lime Accent, or White
- Pair icons with short bold labels
- Recommended library: Canva
- Preferred minimum icon size: 24×24px digital / 0.25" print

Photography Direction

DO	Use misty, foggy mountain landscape imagery to reinforce the High Meadow brand identity
DO	Use authentic, high-contrast imagery of professionals and technology
DO	Prefer deep green and dark-toned editorial photography
DO	Overlay images with dark green tint at 40–60% opacity
DON'T	Use stock-photo clichés (handshakes, generic charts)
DON'T	Mix warm-toned and cool-toned images on the same page
DON'T	Use low-resolution images below 72dpi screen / 300dpi print

HIGH MEADOW SOLUTIONS

Voice & Tone

Suggested tag line

“Built for Wealth. Wired for What's Next

1 Expert

"We bring deep expertise and consultative thinking to every engagement, helping clients navigate complexity with clarity and confidence."

2 Approachable

"We work alongside our clients as true partners, taking a hands-on approach to understand their unique challenges and goals."

3 Action-Oriented

"Our language tends to center on results and progress. We aim to keep things grounded, practical, and focused on long-term value."

Key Suggestions

Brand & Social Media

1

Standardise to Inter Across All Graphics

Inter is a geometric sans-serif designed for digital-first environments. It tends to feel more contemporary and improves readability on mobile, where most social content is consumed.

2

Keep to One Font Per Post

Avoiding mixed typefaces within a single graphic helps create a more cohesive, professional feel and reinforces brand recognition across all touchpoints.

3

Incorporate Real Photography

Authentic imagery of people or settings can significantly improve scroll-stopping power and makes content feel more human. Even a faded background photo adds warmth and energy.

4

Balance Promotional with Value-Led Content

Weaving in CRM tips, industry trends, and digital insights positions High Meadow as a thought leader, not just a vendor, and builds genuine audience engagement over time.

5

Explore Infographics and Visual Storytelling

Topics like key facts, process visuals, or industry stats tend to be highly shareable and help communicate complex ideas in a simple, digestible format.
